Victoria, BC, Canada — reachme@chaitanyaa.com — +1-250-891-5255 — LinkedIn — Portfolio — GitHub

Summary

Computer Science graduate (Dec 2025, University of Victoria) with a Software Systems specialization and experience across full-stack web development, AI-powered applications, and engineering QA/QC processes. Proven ability to design, build, and ship production-quality systems using React, Node.js, Python, and modern tooling, including LLM APIs for automation and analytics.

Education

University of Victoria

BSc, Computer Science — Software Systems • Business Minor

Graduating GPA: 8.3 / 9.0

Victoria, BC, Canada

Sept 2021 – Dec 2025

Relevant Coursework: Software Engineering, Web Development, Databases, Algorithms and Data Structures, Operating Systems, Software Testing and QA

Skills

Programming Languages: JavaScript, TypeScript, Python, Java, C, C++, Assembly

Frontend: HTML5, CSS3, Tailwind CSS, Bootstrap, React, Vite, Responsive Design

Backend & APIs: Node.js, Express, REST APIs, Authentication (JWT)

Databases: MongoDB, PostgreSQL, MySQL, Firebase

AI & Data Tools: ChatGPT, Gemini API, Microsoft Copilot, Copilot Studio, Prompt Engineering

DevOps & Systems: Git, Docker, Linux, CI/CD Concepts

Engineering & QA: Software Testing, Debugging, QA/QC Processes, Documentation

Soft Skills: Problem Solving, Systems Thinking, Ownership, Collaboration, Communication

Work Experience

Houle Electric

Jan 2024 – Aug 2024

Co-op Project Manager / Assistant

Cowichan District Hospital Redevelopment

- Designed and implemented robust Quality Assurance and Quality Control (QA/QC) workflows for a large-scale hospital redevelopment project.
- Standardized inspection and documentation processes, ensuring compliance with safety, quality, and regulatory requirements.
- Built and configured a reusable company-wide Procore QA/QC template adopted across multiple projects and recognized by senior leadership.
- Managed high-volume documentation, inspections, and timesheets with a strong emphasis on accuracy and accountability.

Infinity Outdoor Pvt. Ltd

Delivered 2025

Contract Web Developer

- Designed and launched a responsive marketing website to improve brand visibility and campaign presentation.
- Built with React, Vite, and Tailwind CSS, achieving a 35% faster load time through optimized component structure and asset handling.
- Collaborated directly with stakeholders to translate business requirements into a modern, data-driven web experience.

Technical Projects

Social Spark — AI Brand & Influencer Platform

React, Node.js, MongoDB, Gemini API, Docker

- Built an AI-driven platform for intelligent brand-influencer campaign matching and analytics.
- Integrated Gemini API to automate campaign recommendations and engagement insights.
- Implemented secure JWT authentication and scalable REST APIs.

Day Trading System — Full Stack Matching Engine

Python, REST APIs, Docker

- Designed a trading platform supporting wallets, market orders, and limit orders.
- Implemented FIFO-based order matching with partial fills and sorted order books.

The Brief Bulletin — Journalism Platform

HTML, CSS, JavaScript

- Developed a real-time blogging platform optimized for SEO and rapid publishing.
