

Chaitanyaa Chopraa

Victoria, BC, Canada — reachme@chaitanyaa.com — +1-250-891-5255 — LinkedIn — Portfolio — GitHub

Summary

Computer Science graduate with hands-on experience in full-stack development, API integrations, and technical implementation support. Proven ability to troubleshoot integration issues, work directly with stakeholders, and deliver clear technical documentation. Strong track record of improving operational workflows, managing multiple priorities, and ensuring successful system rollouts.

Education

University of Victoria

BSc Computer Science (Software Systems Specialization), Business Minor

Victoria, BC, Canada

Dec 2025

Graduating GPA: 3.8/4

- **Relevant Coursework:** Software Engineering, Web Development, Databases, Algorithms and Data Structures, Operating Systems, Software Testing and QA

Skills

Languages & Web: JavaScript, TypeScript, Python, HTML, CSS

Frontend & Backend: React, Node.js, Express, Vite

APIs & Data: REST APIs, JSON, HTTP, MongoDB, PostgreSQL

Tools: Git, Docker, Postman, Linux

Core Strengths: Troubleshooting, Technical Documentation, Integration Support, QA/QC, Project Coordination, Stakeholder, Client Support

Professional Experience

Houle Electric

Co-op Project Manager / Assistant

Jan 2024 – Aug 2024

Cowichan District Hospital Redevelopment

- Coordinated with **engineers, vendors, and field teams** to resolve **technical and operational issues** across multiple workstreams
- Developed and implemented **QA/QC workflows**, improving **process consistency and compliance**
- Managed **200+ project documents, inspections, and reports**, ensuring **accuracy and on-time delivery**
- Identified **workflow gaps** and introduced **standardized documentation and tracking processes** to improve efficiency
- Acted as a **primary point of contact** for stakeholders to resolve issues and minimize project delays
- Investigated and resolved **process discrepancies** using field data and user feedback

Infinity Outdoor Pvt. Ltd

Contract Web Developer

Delivered 2025

- Designed and launched a responsive website using **React, Vite, and Tailwind CSS**
- Integrated frontend components with **REST APIs** and resolved **integration issues** during deployment
- Improved **performance by 35%** through optimized architecture and asset handling
- Collaborated with **stakeholders** to gather requirements and deliver a **production-ready solution**
- Provided **post-launch troubleshooting** and created **deployment documentation**

Technical Projects

SwiftTrade - Day Trading System

Python, REST APIs, Docker, JMeter, MongoDB, RabbitMQ, Redis

- Built a system supporting **authentication, wallet management, and order processing**
- Designed and exposed **secure REST APIs** for client interactions
- Implemented **error handling and logging** to diagnose system issues
- Documented **API endpoints and system workflows** for external use
- Containerized services using **Docker** and simulated **concurrent user scenarios** to ensure reliability

Social Spark - AI Brand & Influencer Platform

React, Node.js, MongoDB, Gemini API, Docker

- Developed a web platform integrating frontend and backend through **REST APIs**
- Implemented **authentication** and backend services to support scalable user interactions
- Designed **modular API architecture** for maintainability and future expansion

Implementation & Support Experience

- Tested and validated API endpoints using **Postman** to identify integration issues
- Troubleshot **HTTP errors, authentication failures, and data mismatches**
- Produced **technical documentation** for APIs, workflows, and deployment processes
- Managed **multiple parallel tasks and deadlines** across projects and client work
